Description: Flat-roof kit/10

Content: 10 x 3 Stainless steel clips
10 x 1 Support profile
Fixing materials

Material: Aluminium_{Natural}/stainless steel

Flat-roof kit

The **flat-roof kit** is used for installing standard PV modules. The modules can be positioned at an angle of 30°. Mounting rails are also needed to install the modules (order separately).

The customer must adjust the length of the support profile to suit the standard module.

Use the required number of flat-roof kits as defined in the tables in the installation instructions.

Features

- Modular construction
- Choose the ideal orientation
- Easy to align mounting rails
- Quick, easy and secure assembly
- Weather-resistant aluminium
- Proof of structural integrity

Aluminium_{Natural}: Plate finish (similar to RAL 7035, light grey)
