

**Article number:** 221 227  
**Description:** Universal screw

**Contents:** 100 M8 x 14 screws

### Universal screws

The M8 x 14 screws, with hexagon socket, are used to attach the retaining brackets. This **universal screw** is used in all installation systems.

### Features

- Material: Stainless steel
- Corrosion-resistant

**Article number:** 221 353  
**Description:** Anchor block

**Contents:** 100 anchor blocks

### Anchor block

The **anchor block** is used in conjunction with the universal screw (221 227) or punching screw (221 585) to fix retaining brackets to all mounting rails. The anchor block is fitted into the groove of the mounting rail.

### Features

- Quick and easy assembly
- Weather-resistant aluminium
- Spring-loaded ball-shape prevents unit from slipping down
- Easy to adjust
