

Article number: 221 354
Description: Interlocking bolt kit

Article number: 221 585
Description: Punching screw

Contents: 100 interlocking bolts
100 M8 nuts
100 serrated lock washers

Contents: 50 punching screws
Length: 20 mm
Material: Stainless steel

Interlocking bolt kit

The **interlocking bolt kit** is used to attach the mounting rail to the roof anchor or flat-roof kit (221 199).

Features

- Quick and easy assembly
- High mechanical load-bearing capacity
- Material: Stainless steel

Punching screw

The **punching screw** is used to provide a positive and frictional connection between the retaining bracket and mounting rail.

Features

- Quick and easy assembly
- Stainless steel
- Extremely secure thanks to positive and frictional connection
