Content: 2

Coupling plate, centre

The **centre coupling plate** is used to extend the centre integrated roof mullion vertically.

Material: Aluminium plate finish, similar to RAL 7035

Important:

Maximum 2 integrated roof mullions (each 5.85 m) can be joined. This is to ensure the best possible flow of rainwater.

Features

- Weather-resistant aluminium
- Quick and easy assembly
- Sealed using butyl strip

Coupling plate, side

The **side coupling plate** is used to extend the side integrated roof mullion vertically.

Material: Aluminium plate finish, similar to RAL 7035

Important:

Maximum 2 integrated roof mullions (each 5.85 m) can be joined. This is to ensure the best possible flow of rainwater.

Features

- Weather-resistant aluminium
- Quick and easy assembly
- Sealed using butyl strip
