<p>In the case of roof anchor plain tile-AI (Art. No. 221 824) and roof anchor slate-AI (Art. No. 231 071), the interlocking bolt is pre-fitted to the roof anchor with washer and M8 nut.</p>	

Roof anchors

The position of the roof rafters must be taken into account when fixing the plain tile and slate roof anchors. There is then usually no need to use the mounting battens supplied in the on-roof installation kit.

The fixing screws for the plain tile and slate roof anchors must be provided by the customer.

Features

- Stainless steel interlocking bolt
- Aluminium roof anchors
- High mechanical load-bearing capacity
- Easy to align mounting rails
- Proof of structural integrity
- Height-adjustable incorporation of base rail
- Tested in accordance with EN 12 975-2
