

Article number:	221 743	<p>Powerline modem NLMPB</p> <p>This interface enables data to be transmitted between SMA inverters and devices such as data loggers, PCs or displays.</p> <p>The NLMPB NR powerline modems are fitted in the inverters and is used for transmitting data over a powerline connection.</p> <p>The NLMPB-NR powerline modem is suitable for types SB 700, SB 1100, SB 1700, SB 2100TL, SB 2500, SB 2800i, SB 3000, SB 3300, SB 3800.</p> <p>The NLMPB-MS-NR powerline modem is suitable for types SB 3300TL, SB 3300TL HC, SB 4200TL HC, SB 5000TL, SB 5000TL HC.</p> <p>The NLMPB-SMC-NR powerline modem is suitable only for models SMC 5000, SMC 6000.</p>
Description:	Powerline modem NLMPB-NR	
Contents: May be used with:	Powerline modem SMA inverters SB 700, SB 1100, SB 1700, SB 2100TL, SB 2500, SB 2800i, SB 3000, SB 3300, SB 3800	
Possible line length: NLMPB-NR	Up to 1000 m	
Article number:	231 064	<p>If grid-connected communication systems (baby monitor, building system technology etc.) or other high-frequency devices are also used, harmonics and reflections may occur on the line. In such unstable conditions, you will need to use a separate data line in conjunction with interface RS485 or RS232 to ensure reliable communication between devices.</p>
Description:	Powerline modem NLMPB-MS-NR	
Contents: For use with:	Powerline modem SMA inverters SB 3300TL, SB 3300TL HC, SB 4200TL HC, SB 5000TL, SB 5000TL HC	
Possible line length: NLMPB-MS-NR	Up to 1000 m	
Article number:	231 465	<p>Features</p> <ul style="list-style-type: none"> ● Extremely easy to install ● No additional data line required ● Data transmission from inverter to Sunny Boy Control or PC possible
Description:	Powerline modem NLMPB-SMC-NR	
Contents: For use with:	Powerline modem SMA inverters SMC 5000, SMC 6000	
Possible line length: NLMPB-SMC-NR	Up to 1000 m
