Contents: 100 m (1 roll)
11 mm rubber strip for Schüco and Sharp PV modules

Article number: 231 164
Description: Rubber strip, 3 mm

Contents: 200 m (1 roll)
3 mm rubber strip for Kyocera PV modules

Rubber strip

The **rubber strip** provides line support of the snow load profile (Art. No. 231 162).

Depending on the PV module type, the correct rubber strip is to be chosen and inserted into the grooves of the snow load profile.

Important:

For parallel supports, the rubber strip must be twice as long as the snow load profile.

Features

- Temperature- and UV-resistant EPDM material
- Fits securely on the snow load profile
- Quick and easy assembly
