

Article number: 231 240
Description: Siemens RS232/485 interface

Content: Interface RS232/485 for Siemens inverters
Powerpack for power supply

Supply:
Voltage supply: 9 – 24 V
Current consumption: < 500 mA

Integrated interfaces:
1 x RS485: Half-duplex/full-duplex mode, switchable
2 x RS232: Inverter connection
PC- / modem connection

Possible cable lengths:
RS232 Up to 10 m
RS232 Up to 1000 m

Status display: LED

Ambient temperature: -10 – 50 °C

Protection type IP 65

Size (W x H x D): 125 x 80 x 60 mm

Weight: Approx. 0.5 kg

Siemens RS232/485 interface

The **RS232/485 interface** enables data to be transferred between Siemens inverters and additional devices such as PCs or display units.

Features

- Robust IP65 casing
- Reliable operation over short distances
- Interface to most additional devices available as standard
- Independent of disturbances such as harmonics and reflections.
