

Article number: 231 252
Description: Siemens display converter

Content: Display converter for Siemens inverters
Powerpack for power supply

Supply:
Voltage supply: 9 – 24 V
Current consumption: < 500 mA

Integrated interfaces:
RS485: Display connection in half-duplex mode

Cable length: Up to 1000 m

Ambient temperature: -10 – 50 °C

Protection type IP 65

Size (W x H x D): 125 x 80 x 60 mm

Weight: Approx. 0.5 kg

Siemens display converter

The **display converter** enables a large photovoltaic display screen made by Datalite and Ricoh to be connected to Siemens inverters.

Features

- Data transfer up to 1000 m
- Robust IP65 casing
- Up to 128 inverters may be connected
