**Content:** 2 roof anchors  
2 interlocking bolts  
2 washers  
2 M8 nuts

To fix the roof-mounted system to a pan tile roof. In the case of roof anchor pantile-5/2 (Art. No. 231 681) and roof anchor pantile-6 (Art. No. 231 268), the interlocking bolt must be pre-fitted with the washer and the M8 nut must be pre-fitted on the roof anchor.

### Roof anchor – pantile

The position of the roof rafters must be taken into account when fixing the pantile-5 and pantile-6 roof anchors. There is then usually no need to use the mounting battens supplied in the on-roof installation kit.

**The screws (hexagon head cap wood screws or similar) must be provided by the customer.**

### Features

- Stainless steel interlocking bolt (only for pantile-5/2 and pantile-6 roof anchors).
- Stainless steel roof anchors
- High mechanical load-bearing capacity
- Easy to align mounting rails
- Proof of structural integrity
