

Article number: 231 560 Description: Mounting rail 2/1	Mounting rail 2 Mounting rail 2 is used in the on-roof installation of PV Light and flat-roof installation of standard PV modules. The modules are attached to the mounting rails using retaining brackets. The mounting rails can be mounted on roof anchors or other substructures using interlocking bolts.
Content: 1 Length ~ 4200 mm H x W = 42 x 40 mm $I_x = 7.18 \text{ cm}^4$ Material: Aluminium _{Natural}	
Article number: 221 290 Description: Mounting rail 2/9	
Content: 9 Length ~ 6150 mm H x W = 42 x 40 mm $I_x = 7.18 \text{ cm}^4$ Material: Aluminium _{Natural}	
Article number: 221 291 Description: Mounting rail 2/45	Features <ul style="list-style-type: none"> • Quick and easy assembly • Weather-resistant aluminium • Flexible arrangement of module arrays • Proof of structural integrity
Content: 45 Length ~ 6150 mm H x W = 42 x 40 mm $I_x = 7.18 \text{ cm}^4$ Material: Aluminium _{Natural}	
Article number: 221 292 Description: Mounting rail 2/216	
Content: 216 Length ~ 6150 mm H x W = 42 x 40 mm $I_x = 7.18 \text{ cm}^4$ Material: Aluminium _{Natural}	

Aluminium_{Natural}: Plate finish (similar to RAL 7035, light grey)
