

Article number: 231 599
Description: DC KT 165

Operating voltage U_b 12 / 24 V DC

Power consumption (typ./max.) P 40 / 80 W

Energy requirements where average daily ambient temperature is

21 °C	96 Wh/day
32 °C	168 Wh/day

Fuse protection

Where $U_b = 12$ V DC	I	15 A
Where $U_b = 24$ V DC	I	7.5 A

Permitted ambient temperature -10 to +43 °C

Capacity 165 l

Setting range
Interior temperature 2 to 5 °C

Dimensions (W x H x D): (102 x 76 x 94) cm
Weight 51 kg

Chest fridge DC KT 165

The **DC KT 165** chest fridge is used to refrigerate food for domestic use. This chest fridge has been especially designed for use with battery powered or battery assisted solar energy systems.

The interior temperature is controlled by an adjustable thermostat.

The very thick insulation minimises energy consumption which is less than that of standard AC-powered equivalents.

Quality features, certificates

- Automatic recognition of operating voltage
- Low energy consumption
- Attractive design
- CE compliance
