

Article number: 231 600
Description: DC GT 165

Operating voltage	U_b	12 / 24 V DC
Power consumption (typ./max.)	P	40 / 80 W
Energy requirements where average daily ambient temperature is		
21 °C		300 Wh/day
32 °C		444 Wh/day
Fuse protection		
Where $U_b = 12$ V DC	I	15.0 A
Where $U_b = 24$ V DC	I	7.5 A
Permitted ambient temperature		
		-10 to +43 °C
Capacity		
		165 l
Setting range		
Interior temperature		
		-18 to -12 °C
Dimensions (W x H x D):		
		(102 x 76 x 94) cm
Weight		
		51 kg

Chest freezer DC GT 165

The **DC GT 165** chest freezer is used to freeze food for domestic use. This chest freezer has been especially designed for use with battery powered or battery assisted solar energy systems.

The interior temperature is controlled by an adjustable thermostat.

The very thick insulation minimises energy consumption which is less than that of standard AC-powered equivalents.

Quality features, certificates

- Automatic recognition of operating voltage
- Low energy consumption
- Attractive design
- CE compliance
