

**Article number:** 231 601  
**Description:** DC CL 1215 W

Operating voltage	$U_b$	11-15 V DC
Power consumption	$P$	15 W
Current consumption	$I$	1.2 A
Light intensity		> 750 lm
Light temperature		2700 K
Ambient temperature		-10 to 50 °C
Socket		E27
Service life		> 10,000 hours
Light colour		Warm

**Energy-saving bulbs DC CL 1215 W and DC CL 2415 W**

The **DC CL 1215 W** and **DC CL 2415 W** energy-saving bulbs are DC-powered gas discharge bulbs. The very high light efficiency makes this bulb the ideal choice for energy efficient stand-alone systems. A special electronic circuit allows for an extremely high number of switching cycles.

**Quality features, certificates**

- 12/24 V operating voltage
- Extremely high light efficiency
- E27 standard socket, for use in standard lamps
- Unusually high number of switching cycles
- Attractive design
- CE compliance

**Article number:** 231 602  
**Description:** DC CL 2415 W

Operating voltage	$U_b$	22-26 V DC
Power consumption	$P$	15 W
Current consumption	$I$	0,6 A
Light intensity		> 650 lm
Light temperature		2700 K
Ambient temperature		-10 to 30 °C
Socket		E27
Service life		> 4000 hours
Light colour		Warm
