

**Article number:** 231 643  
**Description:** TS Pro

Probe compensation	-3 mV/°C/cell
Dimensions (W x H x D):	51.5 x 58 x 22 mm

### Temperature sensor TS Pro

The operating voltages of the lead acid batteries change according to the battery temperature. To compensate for fluctuations in the operating voltages of the batteries in accordance with the relevant temperature, the **TS Pro** temperature probe can be operated on the Inverter 1600 Pro and Inverter 4000 Pro stand-alone inverters.
