

# PV INSTALLERS

## Put an end to broken tiles

We all know how easily Plain or Rosemary tiles break during or even after solar PV installation.

**Now, with NEW HookStop™ you can stand on the roof hooks or mounting rail without breaking the tiles beneath.**

HookStop™ is a patented, shock-absorbing tile that replaces the fragile tiles directly under the roof hook. It puts an end to broken tiles, reduces installation time and gives you peace of mind.

**Prevents Tile Breakages**

**HOOK STOP**
