### Powerwall 3

### **Power Everything**

**Powerwall 3** is a fully integrated solar and battery system designed to accelerate the world's transition to sustainable energy. Powerwall 3 can store solar or grid energy for later use when the sun goes down or when the electricity prices are high; lowering their electricity bills, reducing their reliance on the grid, and power their homes during a grid outage. Once installed, customers can manage their home energy system using the Tesla App and customize system behavior to meet their energy goals.

Powerwall 3 achieves this by supporting up to 20 kW DC of solar and providing 11.04 kW AC of continuous power per unit. It has the ability to store up to 13.5 kWh of energy and start heavy loads rated up to 185 A LRA, meaning a single Powerwall 3 can support the power needs of most homes.

Powerwall 3 is designed for fast and efficient installation and modular system expansion. With multiple Powerwall 3 units and/or **Expansions**, it is easier and more affordable to scale up customers' systems to provide 44 kW AC of continuous power and to store up to 94.5 kWh of energy.

## **Powerwall 3 Technical Specifications**

## **System Technical Specifications**

| Model Number   |    | 17070  | 00-xx- | y    |      |      |      |      |       |
|--|----|--|--------|------|------|------|------|------|-------|
| Nominal Grid Voltage (Input & Output)  |    | 230 VAC  |        |      |      |      |      |      |       |
| Grid Type  |    | Single   | phase  |      |      |      |      |      |       |
| Frequency  |    | 50 Hz  |        |      |      |      |      |      |       |

| Power Scalability  |    | Up to 4 Powerwall 3 units supported  |        |      |      |      |      |      |       |
| Energy Scalability   |    | Up to 3 Expansion units (for a maximum total of 7 units)   |        |      |      |      |      |      |       |
| Supported Islanding Device   |    | Backup Gateway 2   |        |      |      |      |      |      |       |
| Connectivity   |    | Wi-Fi (2.4 and 5 GHz), Ethernet, Cellular (LTE/4G <sup>5</sup> )                                       |        |      |      |      |      |      |       |
| Hardware Interface   |    | Dry contact relay 60V 2A, Rapid Shutdown (RSD) certified switch and 2-pin connector, RS-485 for meters |        |      |      |      |      |      |       |
| AC Metering Accuracy   |    | +/- 0.5%   |        |      |      |      |      |      |       |
| Protections Integrated arc fault circuit interrupter (AFCI), Is Monitor Interrupter (IMI), Integrated DC Isolato |    |  | ition  |      |      |      |      |      |       |
| Customer Interface   |    | Tesla Mobile App   |        |      |      |      |      |      |       |
| Warranty <sup>6</sup> 10 years   |    |  |        |      |      |      |      |      |       |
|  |    |  |        |      |      |      |      |      |       |

 $<sup>^1\</sup>mbox{Values}$  provided for 25°C (77°F), at beginning of life. 3.3 kW charge/discharge power.

<sup>&</sup>lt;sup>2</sup> Powerwall 3 can output up to 15.4 kW AC power at 64 A and 240 V.

 $<sup>^3</sup>$  Typical use case with energy produced by PV and stored in battery and then released to loads or the grid.

<sup>&</sup>lt;sup>4</sup> Tested using CEC weighted efficiency methodology.

<sup>&</sup>lt;sup>5</sup> The customer is expected to provide internet connectivity for Powerwall 3; cellular should not be used as the primary mode of connectivity. Cellular connectivity subject to network operator service coverage and signal strength.

<sup>&</sup>lt;sup>6</sup> Powerwall 3 must be reliably connected to the internet to secure the full 10-year warranty.
