RAPID SLATE

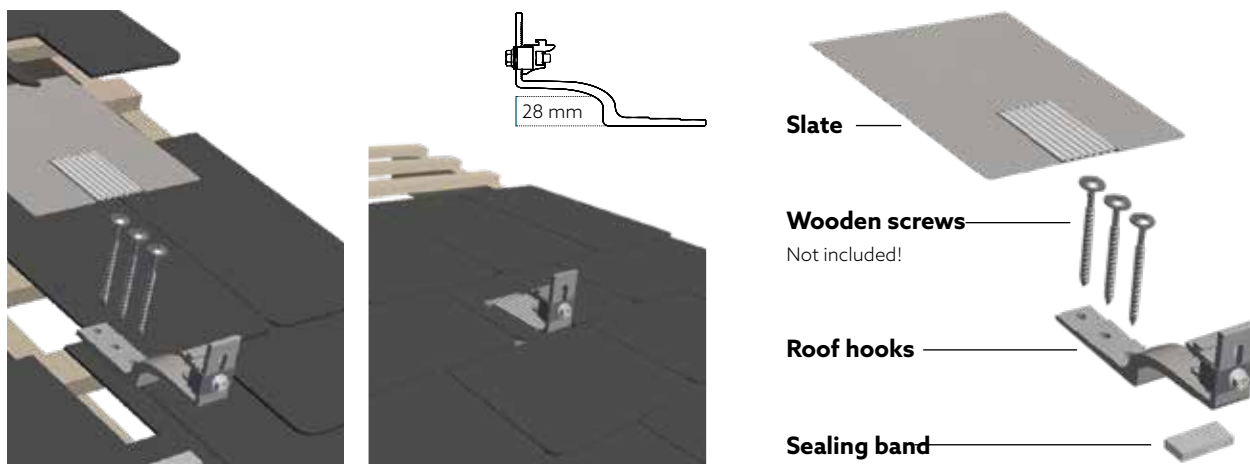

PRODUCT SHEET

RAPID SLATE ROOF HOOK

THE FASTENER FOR SHINGLE ROOFS

- Direct loading onto the rafters
- Quick and simple assembly
- Suitable for many shingle types
- cover plate with flexible sealing band
- 10-year guarantee

The Rapid2+ Slate roof hook was developed especially for fastening to roofs with shingle covering on a batten substructure and narrow rafters. The cutout required to connect the roof hook is covered by the cover plate (slate). A sealing band between the roof hook and the shingle also protects from rising water.

AVAILABLE VERSIONS

Product no. 102002-002 Roof hook Rapid2+ Slate 125 set for slate overlaps of up to 125 mm

Wood screws not included!

3 screws with 6 mm diameter or 2 screws with 8 mm diameter.
Observe the minimum screw depth!
