

CONFIGURATION GUIDE

TERMINOLOGY & TABLE CONFIGURATION

Modular is available in tables of up to a maximum of 60 panels (30 x 2). See below:

Maximum panels on one table: 60

Minimum panels on one table: 4

Tables can be between 4 – 60 panels in total, with a total site size of 1 megawatt output capacity.

Please note that the system supplied will be based on the total number and dimensions of the panels you have specified.

Any enquiries made with an odd number of panels, will be quoted for a system that is rounded up to the nearest even number.

Below is an example of a site that has 150 panels and 3 tables:

Total Number of Panels on Site	150									
Total Number of Tables on Site	3									
Total Number of Panels on each table	1.	60	2.	60	3.	30	4.		5.	
	6.		7.		8.		9.		10.
